What is Factbird Action Plans module?

Factbird Action Plans is a feature on Factbird manufacturing intelligence software. It is a project and task management tool designed for continuous improvement within manufacturing, using PDCA method for problem solving.

Benefits & Features

Action Plans drives improvement plans in the factories, by streamlining/digitizing the workflow, prompting actions and adjustments with notifications, and retaining and utilizing know-how across the organization.

Furthermore, Action Plans accelerate the utilization of manufacturing data in the Factbird software by associating downtime analysis data with problem solving actions. Adding Action Plans to the Factbird software provides a comprehensive solution for manufacturers to turn data into value, which closes the loop of getting data to increase efficiency.

Efficiently manage and drive data driven CI (Continuous improvement) activities across departments.

Digitize problem solving tasks and Cl initiatives, gain visibility of their status.

Preserve problem solving expertise to prevent knowledge loss, leverage knowledge across sites.

Use case examples

- **Visibility** Start digitizing and managing action plans on Factbird to gain visibility of all action plans and their status, use at daily/weekly performance meeting.
- **CI management** Drive data/fact-based CI initiatives using Factbird downtime analytics and Action Plans. Utilize reminder and escalation features to follow up on various initiatives. Knowledge is retained in the cloud for future use.
- **Digitizing problem-solving task** Streamline problem-solving tasks. Upload photos containing the problem-related data (analytics, metrics, batch/product-specific), archive them in the cloud, share them, and make a plan to improve.

2. "Action Plans" page will be shown. Click "+ACTION PLAN" button to create an action plan.

3. By selecting a location (e.g., line or company), you can create action plans for that location.

New groupings of locations (e.g., departments, business units, sites) can be added and edited on the "**ORGANIZATION**" tab on the "**Administration**" page, if necessary. Contact your sales person for more information.

USER GUIDE Action Plans

Go to ANALYTICS and create action plan

1. Navigate to your desired line, then click the "ANALYTICS" tab.

- 2. Navigate to your desired analysis, e.g., "product jam" during April.
- 3. Click on "**ACTIONS**" and "**Create Action Plan**" to create an action plan for the analysis in 2, e.g., create an action plan for the "product jam".

Fill out the form to create an action plan On the "Create action plan" pop-up, fill out the information by following the instructions. Title: The name of the action plan

• **Category**: Choose from pre-set categories that cover typical categories for SQCDE (Safety, Quality, Cost, Delivery, Environment).

3

Manage action plans on Action Plans dashboard

- 1. Click on "Action Plans" from the menu on the left side.
- 2. Once action plans are created, they will be shown on the Action Plans dashboard.
- 3. **COLUMNS:** This allows you to customize the view by showing/hiding columns.
- 4. **DENSITY**: This allows you to adjust the view by narrowing/widening rows.
- 5. Clicking on a column title sorts the list.
- 6. Clicking on a star to turn it yellow visually highlights the action plan. Action plans with a star will be sorted higher by default.
- 7. You can select a location (e.g., departments, business units, sites) to show the action plans that belong to that location. The locations (e.g., departments, business units, sites) can be added and edited on "**ORGANIZATION**" tab on the "**Administration**" page.

Add tasks to an action plan

- 1. Click on an action plan from the list to go to the "Edit Action Plan" page.
- 2. Click on "**Tasks**" to add tasks.
- 3. Check the checkboxes once the tasks are completed.

5

Send notifications to remind and escalate

- 1. Click on an action plan to see the full details or edit it.
- 2. Clicking mail icon sends an email notification to the responsible person.
- 3. If an action plan requires escalation to a higher level in the organization, use the "**ESCALATE**" button. Once escalated, the action plan also show up on the list of action plans for the level it has been escalated to. You can also assign a responsible at this new level who will get notified on email about their responsibility.
