Data-driven LEAN starts now! Benefit from expert training to quickly harness Factbird's deep production insights. Our services help your entire team benefit from improved operations, reduced downtime, and higher productivity. Combine Factbird's manufacturing intelligence solutions and professional services to elevate your production.

Accelerate change and maximize Factbird ROI

Quicker buy-in of new processes and upskilling

On-site Factbird expertise and LEAN knowledge

Elevate your production

Take advantage of Factbird's professional services to make continuous improvement part of your daily operations; improve your use of data, drive actions, and enact changes from the shop floor to boardroom.

Reach your goals faster!

Here are some examples of what our customer look for:

- Shrink losses from your top 3 downtime reasons
- Increase OEE by 10% during the night shift
- Move away from hunches to data-based decisions
- Help operators register stop causes efficiently

Dino Redzepovic, a Six Sigma Black Belt, is leading Factbird's professional services program. He is a LEAN expert with extensive experience gained at a leading dairy company's Center of Excellence in Production Optimization. Dino specializes in continuous improvement, project management, and coaching.
